

BDA Good Practice

Our commitment to you

Our practice is committed to developing and maintaining a consistent quality of service for our patients.

- We aim to provide dental care of consistently good quality
- We will work with you to provide care that meets your needs and wishes
- We aim to make your treatment comfortable and convenient
- We will check for mouth cancer and tell you what we find
- We will look after your general health and safety
- We follow current infection control standards
- We keep our skills and knowledge up to date
- We monitor the quality of our service to identify opportunities for improvements
